Akin Care Senior Services

An Aging in Place Plan is not for “old” people. Did you know that, although Americans are healthier and living longer than ever before, seniors are outliving their ability to drive safely by an average of 7 to 10 years? They drive less after dark, during rush hour or in bad weather, and avoid difficult roads such as highways and intersections. How many of us have thought of, or planned for even this one eventuality?

An Aging in Place Plan is created to help individuals choose where they want to reside and the lifestyle they wish to have as they age. That includes incorporating ideas about the services, care, and support one might need as life changes over time.

Aging in place doesn't mean just not moving.

The goal of anyone wanting to age in place should be not just to maintain quality of life, but to thrive where ever you want to be.

In order to do that, a good plan focuses on what is most meaningful to you and should cover possible adaptations to your home, finances, future care and other items, and should be

created as early as possible. As with any good plan, it should be maintained over time.

Who needs an Aging in Place Plan?

Creating a plan is for you, right now! If you haven't retired yet you have time to think about your needs, research your options, and put together a plan that fits you and your family. If you have retired, putting the time into creating a plan will help you remain in control of your life. Building a plan will prepare you to deal with the issues you'll encounter down the road and ease some of the concern the ones you love will experience.

For those us caring for a parent or someone we love, an Aging in Place Plan is for us too. You can be the most helpful by planning with them to ensure their needs are met and wishes respected. It will also help you provide the level of care that is right for them and show your respect to them by ensuring their dignity is kept intact and their needs are met.

Black Bear Builders

Black Bear Builders is a full-service residential construction firm, specializing in additions and large-scale alterations. We offer design-build services for interior

alterations and small-medium size additions. We also work with top architects on larger-scale additions and custom homes.

Black Bear Builders was established in 2010 and we currently have 10 employees, including seven full-time carpenters. We utilize trusted subcontractors and local suppliers to help ensure that our culture of personal service is emphasized throughout the construction process. We understand that both the quality of the construction and the process are paramount to delivering a successful project and have hundreds of satisfied customers that can attest to our level of service.

We are located in Pennington, and the bulk of our work is in the Princeton market. We pride ourselves on having good relationships with Princeton municipality and adhering to local building regulations. The principal, Matthew Bonacci, apprenticed under Harry Williams at williams-BUILDER for eight years before starting Black Bear Builders. Matthew is a lifelong resident of Hopewell Township and earned a business degree from Boston College in 1999.

Bogy Construction

Bogy Construction is a New Jersey-based general contractor specializing in new construction, additions, and home residential renovations in the Princeton and surrounding areas.

Founded in 2004, the company has produced over 150 new construction, additions, and renovation projects.

With Bogy Construction, you get personal involvement with the company's owner in each and every project. With a longtime permanent crew, Bogy Construction provides you the flexibility, cost effective solutions and hands-on attention to detail that result in a high quality product and customer satisfaction every time. Regardless of the size or complexity of the project, we work closely with the homeowners every step of the way. We take care of all the details, including professional design, architectural drawings, permitting, and everything else needed to deliver a final product that doesn't just meet customer

expectations but exceeds them.

Our best testimony, in addition to the number of years in business, is from our former clients. We are proud to have earned the reputation of a reliable, accessible, and accountable construction company that delivers high quality in a timely fashion.

Cranbury Design Center

You've decided it's time to renovate your kitchen. What are the key considerations to making sure the finished product checks off all the boxes on your wish list? Many of our clients are working from home and looking for their kitchen spaces to do double duty as learning centers for their children, or home office spaces for themselves.

Once design goals are decided, it helps to select a few conceptual pictures to understand the style and "look and feel" you want to achieve. Appliance choices will be needed before a conceptual design can be done. For example, the type of hood venting you use will depend on how large and where the cooktop or stove is located. Are you using an appliance hood, or going for a custom wood hood look? Will the kitchen cabinets will be one color, or a mix of two? Perhaps the island will be a dark color, or even wood, and the perimeter cabinets will be white.

Countertop colors and the type of material — quartz, granite, marble, wood, or even metal tops are all popular right now and can help create a timeless design. Lighting, backsplash tile and layout, hardware, and paint

colors complete the list of items to consider.

Cranbury Design has the project management team to help you with all your kitchen design decisions. We can also work with you and your building contractor to design and help you make tile, plumbing fixture, and color selections. We can safely work with you as you get started on your design project! Call us for a virtual design review today. 145 West Ward Street, Hightstown. (609) 448-5600; cranburymdesigncenter.com.

Dewey's Upholstery Shop

Dewey's Upholstery Shop has been family-owned and operated since 1944. Brothers Joe and Scott grew up in the shop watching their dad perfect his craft. They say learning the trade came naturally and they benefited from a hands-on approach that Mr. Weingart emphasized was key. Scott and Joe began working at the store with their father regularly in the early 1970s. The boys then took over the business from their father after he passed in 2011, and are proud to carry on the family name today.

Specializing in furniture refinishing and upholstery services, our second-generation, local company is very detail-oriented and strives to achieve the look you have been searching for! We will always work directly with you to get a customized look.

Dewey's Upholstery has served all residential and commercial customers in the Mercer County area for more than 70 years with the finest upholstery and

refinishing surfaces. We are proud to provide the highest quality products at affordable rates for every style and need. Our team handles upholstery repair for both indoor and outdoor furniture, and we also specialize in color matching. Specialty finishes are available, such as fringes, brad finishes, tassels, and other customized looks. Our shop has a very large selection of fabrics in stock at affordable prices.

We also provide window treatments for both residential and commercial customers, working with blackout blinds, shades, Roman shades, pleated shades, and curtains. Our shop also specializes in cornices, skylight shades, Austrian shades, balloon shades, Venetian blinds, wooden blinds, canopies, awnings, cloud shades, flags, and jabots.

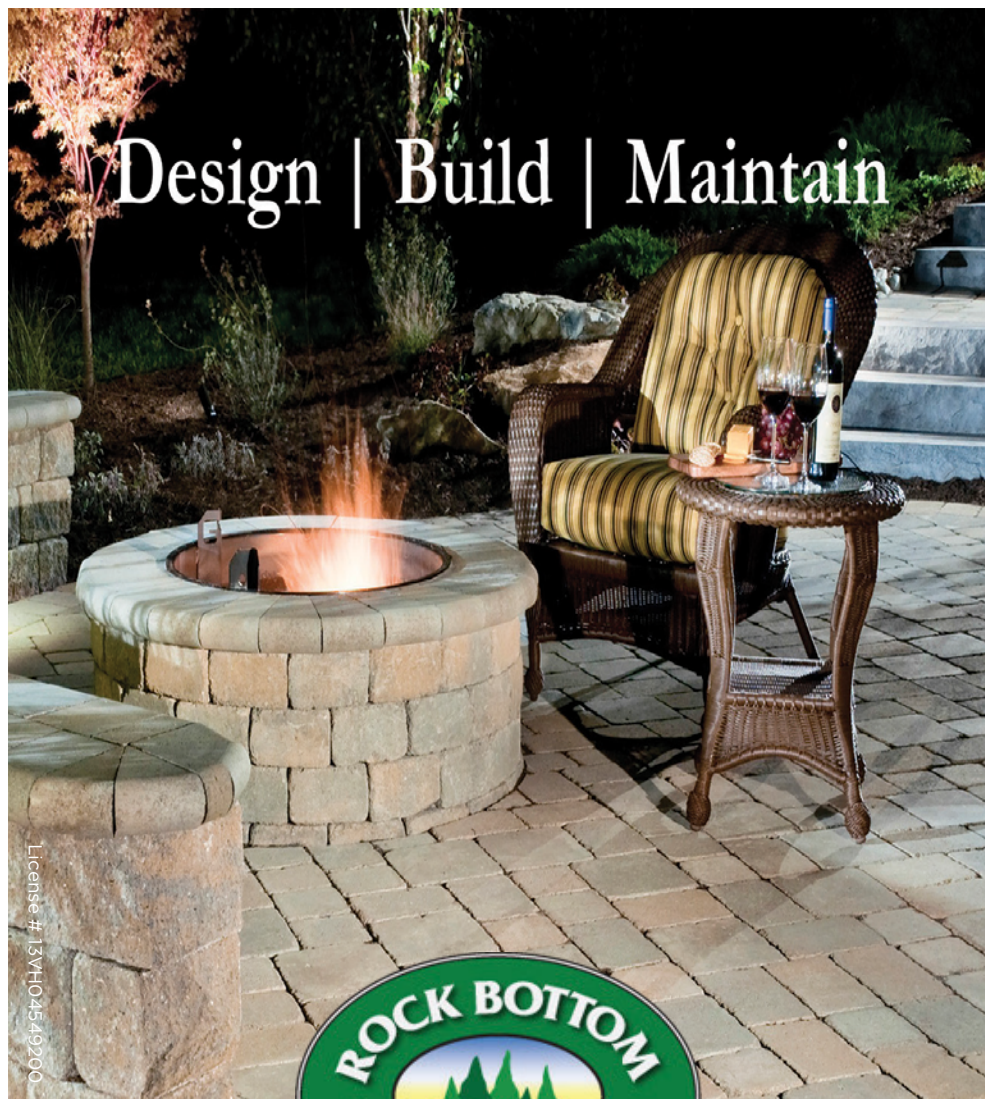

Our team of experts provides antique furniture refinishing and repair for residential and commercial customers. We also do furniture restoration and hand-rubbed finishes using environmentally friendly products. We repair and re-finish couches, infants' furniture, chairs, dining room and living room furniture, outdoor furniture, settees, heirlooms, and chaise lounges. Our professional staff is here to assist you in finding the perfect fit and fashion.

Freda Howard Interiors LLC

Freda Howard Interiors LLC is a full service, client focused residential interior design practice providing cutting edge solutions for interior design dilemmas. They provide clear communication of the design process every step of the way — each design phase is executed with the intention of keeping the project on budget and within code.

The practice works with a vast professional network with a collective 60+ years' experience. From architects and builders, to artists and painters —they have every step of the design process covered!

An avid traveler, Freda brings her experience living on three continents to her interior design practice by using her uncanny ability to step into a client's life to design the interior spaces of their dreams. She believes that a client's home should reflect who they are, the way they live, and include the things they love.

Freda earned two interior design degrees at

Fashion Institute of Technology (FIT) in New York City, where she also earned her Architectural Color Specialist Certificate. She studied small business economics at Stockholms Universitet in Stockholm, Sweden, and holds a degree in economics from Rutgers University. Freda is a member of the American Society of Interior Designers (ASID) and the Interior Design Society (IDS), and is actively involved in several community causes. Her practice is based in Princeton. Glen Fries Associates Architects, LLC

Glen Fries Associates offer a full spectrum of design services to clients across the country from our office in Princeton. Our projects range from primary residences in both city and suburb, to beachfront second homes along the East Coast, to mountain retreats in Colorado, Montana, and California. Though our major focus has been residential, we have also designed restaurants, commercial and corporate offices, public spaces and retail stores.

We specialize in projects that integrate site and context and seek to create an enduring design that respects the vernacular within a classical framework. We work to incorporate new technologies as they emerge and to develop solutions that minimize our impact on the environment.

For each project, we can provide all phases of planning, design, and construction supervision, including obtaining all building permits and documents. In

many locations, we have established long-term working relationships with contractors and consultants with whom we work well. 505 Mercer Road, Princeton. (609) 359-0087; gfries@glenfries.com; glenfries.com.

Jefferson Bath and Kitchen

You're in good hands with Jefferson Bath and Kitchen. Creating beautiful bathrooms since 1989, our knowledge and experience make working with us an easy and enjoyable process. Our showroom, open by appointment, has a selection of fixtures and faucets that you won't see at other area showrooms. We focus on high-end, quality, unique products from smaller, lesser known manufacturers like Jaclo, Toto, and Stone Forest.

To expand and complement our showroom, we also offer a carefully curated selection of products on our website, jeffersonbathandkitchen.com. If you're looking for that one-of-kind piece, this is the place. We also specialize in bathroom remodeling.

Jill Jefferson-Miller and her husband, David Miller will manage your remodeling project from design through completion. They've been managing projects together for over 16 years, and their coordination and organization are invaluable assets to any client who chooses to work with them. Let our experience be the creative solution for your next remodeling project.

Lisa Tobias, Tobias Design, LLC

Lisa Tobias is the owner and head designer for Tobias Design, LLC, based in Hopewell. She's been in business for over 16 years. Lisa and her staff pride themselves on working with their clients to design kitchens, bathrooms, or other home space that reflect their personalities and needs. The outcome is a unique transformation of space. No two projects are ever alike.

They believe the process needs to be as enjoyable as the final product.

"We at Tobias Design have created a formalized, documented approach to achieve this goal. In the end, we want each of our clients to walk away as a 'Yes because' referral for us, not a 'Yes but.' We go out of our way to meet that high standard," says Tobias.

Lisa's business, Tobias Design, has been recognized by the Best of Houzz, an online design platform for homeowners, since 2014 for the highest honor — "Best of Customer Service" category. Tobias Design won a Chrysalis Award last year honoring the finest remodeling projects as well as a NARI Award for Remodeling. Tobias Design has been named Town Topics Readers' Choice Best Kitchen and Bath Designer for the past two years. Lisa is a member of the National Kitchen and Bath Association

(NKBA), National Association of Professional Women (NAPW), Princeton Chamber of Commerce, National Association of Renovators Industry (NARI), and CLIPPs (Certified Living in Place Professional).
